August 7, 2003

Rebecca Irvine, MD

Cross-Examination by Mr. Prichard, Page 51

...

A: It's always a purpose of the autopsy to obtain body fluids to look for drugs and substances.

Q: Substances. That includes alcohol, correct?

A: It does.

Q: And you did such a test on Mr. Montano, correct?

A: I ordered the test and received the result, yes.

Q: And that was incorporated in your report, correct?

A: Correct.

Q: And, in fact, his ethanol level, as a result of alcohol, was .141, correct?

A: That's correct.
